

As of 3/3/2013

## 461 - Department of Ecology

### A001 Clarify Water Rights

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Achieve sustainable use of public natural resources

#### Expected Results

Increased water rights certainty and reduced conflict. Major uncertainty regarding the validity and extent of water rights in the Yakima Basin is removed. Water rights documents (certificates, claims, permits, etc.) in the Spokane Basin will be reviewed to prepare for anticipated adjudication proceedings with Idaho.

001572 - Number of Tribal water right settlement processes initiated.

001655 - Refer to Narrative Justification

As of 3/3/2013

**Statewide Result Area:** Improve the quality of Washington's natural resources**Statewide Strategy:** Preserve, maintain and restore natural systems and landscapes**Expected Results**

Agency managers, the Governor, the State Auditor, the Office of Financial Management (OFM), and the Legislature have confidence in Ecology's financial information and can use it to make decisions affecting the environment. The public is educated about Ecology's work and role in environmental protection and understands the policies the agency is developing and the opportunities available to influence its decisions. Washington's environmental laws and rules are improved through Ecology's relationships with legislators, local governments, businesses, Indian tribes, and environmental and citizen groups. Ecology managers and supervisors possess the highest-quality communication, performance management, hiring, and leadership skills. The Ecology work environment reflects the diversity of the community it serves. Agency staff receives reliable, secure, and high-quality desktop support and network services. Customers have easy access to information. Facilities and vehicles are well-maintained, safe and efficient.

### A003 Assess, Set, and Enhance Instream Flows

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Preserve, maintain and restore natural systems and landscapes

#### Expected Results

Water availability is determined and water is sustained for current and future needs. Increased setting and enhancement of instream flows in critical water basins to benefit people, fish, farming and the environment. Four instream flows are set (Walla Walla, Wenatchee, Lewis, Salmon-Washougal) working with local watershed groups and critical basins not engaged in watershed planning.

As of 3/3/2013

001155 - Percent of monitored stream flows below critical flow levels.

## A005 Clean up the Most Contaminated Sites First (Upland and Aquatic)

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Preserve, maintain and restore natural systems and landscapes

### Expected Results

The number of highly contaminated sites cleaned up increases by three percent each year. Public and environmental health is protected. Toxic contamination in food fish is reduced and the aquatic environment is protected. Cleaned sites are ready for redevelopment and job creation. The number of sites with cleanup actions in progress will increase.

As of 3/3/2013

001501 - Number of known toxics-contaminated sites with cleanup actions completed.

## A006      Clean Up Polluted Waters

**Statewide Result Area:**      **Improve the quality of Washington's natural resources**

**Statewide Strategy:**        **Preserve, maintain and restore natural systems and landscapes**

### Expected Results

Water quality improvement reports are in place to protect public health and the environment. 1,500 contaminated water body segments are managed on 650 water bodies (Washington's legal commitments specified in a Memorandum of Agreement prompted by a lawsuit). Fifty water improvement reports and associated technical reports are submitted each year to the Environmental Protection Agency. Local communities get help implementing water quality improvement reports. An updated list of marine water bodies failing to meet water quality standards is developed.

As of 3/3/2013

## A007 Conduct Environmental Studies for Pollution Source Identification and Control

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Provide good science and natural resource monitoring data to support decision-making

### Expected Results

Scientific studies are conducted to assess pollution sources and environmental health. Resource managers have credible scientific information to inform decisions on pollution controls needed to protect environmental and public health. All study reports are peer reviewed, completed on schedule, and posted to the Internet.

As of 3/3/2013

001165 - Number of polluted waters assessed to identify pollution sources or cleanup success.

## A008 Control Stormwater Pollution

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

Reduced contamination of streams, rivers, estuaries, lakes, and groundwater due to stormwater runoff from roads and other impervious surfaces. Approximately 3,000 construction and industrial stormwater dischargers that require permits are managed. New permit applicants get a response within 60 days of application receipt. Approximately 120 municipal stormwater permits are managed. Permittees get web-based information and support for low-impact development, emerging treatment technologies, and permit technical assistance.

As of 3/3/2013

001554 - Average number of days it takes to make final decisions on construction stormwater permits.

## A009 Eliminate Waste and Promote Material Reuse

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

Solid waste generation per capita decrease, saving businesses and people money and saving resources for future generations.

- \* Increased recovery and use of valuable materials from wastes.
- \* Increased reuse of construction and demolition materials, organic matter, compost, and biosolids.
- \* Decreased amount of wastes disposed of at waste disposal facilities.

As of 3/3/2013

001484 - Million of tons of solid waste generated annually in Washington. Reported annually in Quarters 2 and 6.			
Biennium	Period	Actual	Target
2011-13	Q6	14.8	13.5
2011-13	Q2	15.4	13.5
2009-11	Q6	13.6	14.1
2009-11	Q2	14.3	14.4

## A010 Prevent and Pick Up Litter

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Preserve, maintain and restore natural systems and landscapes

### Expected Results

4,750 tons of litter is picked up with local partners. 450 youth are employed in litter pick-up. 25,000 litter hotline calls are responded to. Litter citations by the State Patrol are decreased by 5 percent. Litter survey is suspended. \$2.6 million in grants is provided to local governments to clean up litter and illegal dumps. Litter is picked up on over 55,000 miles of roads.

As of 3/3/2013

001483 - Road cleanliness rating (1=cleanest:6=very littered) - Reported annually in Quarters 4 and 8.			
Biennium	Period	Actual	Target
2011-13	Q8		4.3
2011-13	Q4	4.35	4.4
2009-11	Q8	4.4	4.8
2009-11	Q4	5.1	5
2007-09	Q8	4.4	3.8
2007-09	Q4	5.2	3.9

Date Measured: 6/30/2009

Comment: Calendar year 2008. Methodology more comparable to past years.

As of 3/3/2013

001489 - Pounds of litter picked up annually. Reported annually in Quarters 4 and 8			
Biennium	Period	Actual	Target
2011-13	Q8		5,100,000
2011-13	Q4	3,326,307	5,000,000
2009-11	Q8	3,373,078	4,750,000
2009-11	Q4	5,934,217	4,750,000
2007-09	Q8	5,075,450	6,000,000
2007-09	Q4	6,289,791	6,600,000

Date Measured: 6/30/2012

Comment: Reductions in funding resulted in fewer EYC crews, reduced funds to state agencies for litter pickup and reduced funds to local governments through the Community Litter Cleanup Program resulted in less litter collected.

001655 - Refer to Narrative Justification

## A011 Ensure Dam Safety

Statewide Result Area: Improve the safety of people and property

Statewide Strategy: Prevent accidents

### Expected Results

Public and environmental health and safety is protected. Reduced risk of potentially catastrophic dam failures for the safety of people and property located below dams.

As of 3/3/2013

001570 - Number of high hazard dams inspected			
Biennium	Period	Actual	Target
2011-13	Q8		17
2011-13	Q4	15	18
2009-11	Q8	20	24

## A012 Ensure Environmental Laboratories Provide Quality Data

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Provide good science and natural resource monitoring data to support decision-making

### Expected Results

Environmental laboratories submitting data to Ecology and the Department of Health have the demonstrated ability to provide accurate and defensible data. Approximately 460 environmental laboratories in 26 states and 2 provinces, including 106 drinking water laboratories, are evaluated and accredited. Performance testing analyses for major permitted wastewater discharge laboratories are evaluated. Regulated laboratories maintain successful, quality programs. Environmental and public health decisions are based on accurate and defensible scientific data.

As of 3/3/2013

001161 - Percent of acceptable performance testing analyses completed by Washington State laboratories.			
Biennium	Period	Actual	Target
2011-13	Q8		100%

2007-09	Q1	98.4%	100%

Date Measured: 9/30/2009

Comment: One lab accounted for nearly half of the unsatisfactory results.

As of 3/3/2013

**Percent 001161 - Percent of acceptable performance testing analyses completed by Washington State laboratories**

001655 - Refer to Narrative Justification

## A013 Fund Local Efforts to Clean Up Toxic Sites and Manage or Reduce Waste

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Preserve, maintain and restore natural systems and landscapes

### Expected Results

Over \$139 million in capital funding grants to local governments and non-profits is provided and managed through Coordination Prevention Grants, Remedial Action Grants, and Public Participation Grants, leveraging over \$50 million in local government resources. Technical assistance on landfill regulations and moderate risk waste is provided through more than 500 agreements with local governments and non-profits. Over 30 million pounds of moderate risk waste is collected each biennium for proper recycling or disposal at moderate risk waste collection facilities funded through Coordinated Prevention Grants. Grant funds provided to local jurisdictional health departments is managed to ensure that approximately 700 solid waste facilities statewide comply with regulatory standards. Funding for toxic sites and drinking water system cleanup is provided and managed. Citizens have access and information related to cleanup of contaminated sites.

As of 3/3/2013

001484 - Million of tons of solid waste generated annually in Washington. Reported annually in Quarters 2 and 6.			
Biennium	Period	Actual	Target

## A014 Restore the Air, Soil, and Water Contaminated from Past Activities at Hanford

Statewide Result Area: Improve the quality of Washington's natural resources

Statewide Strategy: Preserve, maintain and restore natural systems and landscapes

### Expected Results

Public use of the air, soil, and water at Hanford will be restored. Human and environmental risks associated with past Hanford activities are removed or reduced. Continue cleanup of contaminated waste sites adjacent to the Columbia River. Begin cleanup on the Hanford Central Plateau.

As of 3/3/2013

<b>001358 - Tons of radioactive and/or chemically contaminated soil and debris from near the Columbia River that are removed and securely disposed at Hanford.</b>

## A015 Clean Up and Remove Large, Complex, Contaminated Facilities throughout Hanford

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Preserve, maintain and restore natural systems and landscapes

### Expected Results

All major facilities on the Hanford Site will be decontaminated and decommissioned, and either demolished or placed into a long-term safe storage configuration. 30 percent of the 324 Building removal and remediation actions will be completed. Complete 45% of the decontamination and decommissioning effort at the Plutonium Finishing Plant will be completed. Complete 70% of the interim safe storage of the N Reactor 105-N/109-N building.

As of 3/3/2013

001361 - Decontaminate and decommission the plutonium finishing plant on Hanford on schedule by 2016. (percent complete)

---

**A018      Ensure the Safe Management of Radioactive Mixed Waste at Hanford**

---

**Statewide Result Area:**      **Improve the quality of Washington's natural resources****Statewide Strategy:**      **Preserve, maintain and restore natural systems and landscapes****Expected Results**

Manage and retrieve, treat/process, store and dispose of transuranic and mixed low-level waste in compliance with existing regulations to reduce risks posed to Hanford workers and the environment significantly. Tri-Party (USEPA, USDOE, Ecology) negotiations to establish schedules for the remainder of waste retrieval, treatment, and disposal are complete. 10,700 cubic meters (cumulative) of contract-handled retrievably stored waste are retrieved from the low level burial grounds at Hanford by September 30, 2010. U.S. Ecology commercial low-level radioactive waste site Model Toxics Control Act investigation is complete. A draft cleanup action plan is complete.

As of 3/3/2013

001360 - Amount of transuranic waste removed from the low level burial grounds at Hanford. (cubic meters).

## A019 Improve Community Access to Hazardous Substance and Waste Information

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Provide good science and natural resource monitoring data to support decision-making

### Expected Results

Hazardous waste data (type, location, volume, etc.) is readily available to emergency responders, local governments, citizens, and decision makers. "Chemicals in Washington" on-line report is developed and distributed annually. Over 1,000 information requests from citizens and businesses made and responded to by the Toxic Free Tips hotline and e-mail. "Shoptalk" newsletter transitions to electronic distribution with a list serve population of 5,000 by 2012. Thirty business publications are created or updated annually, posted to the web, and available for electronic distribution. 4,000 hazardous waste reports from businesses are collected and analyzed yearly.

As of 3/3/2013

001286 - Number of visits to Ecology's Hazardous Waste and Toxics Reduction web sites.

## A021 Increase Compliance and Act on Environmental Threats from Hazardous Waste

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

Facility compliance in managing hazardous wastes is improved for the protection of public health and the environment. 320 compliance inspections are conducted annually (including 15 treatment, storage, and disposal facilities and 70 large quantity hazardous waste generators). Up to 180 complaints regarding hazardous wastes or substances are responded to. More facilities, including treatment, storage, and disposal facilities, achieve and stay in compliance with regulatory requirements.

As of 3/3/2013

001284 - Number of significant toxics-related environmental threats resolved.

## A023 Manage Underground Storage Tanks to Minimize Releases

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

Underground storage tanks are properly installed, monitored, or decommissioned to minimize the release of oil, gas, and other toxic materials into drinking water and other underground water sources. Decreased number of reported releases from underground storage tanks over time. Increased number of leaking underground storage sites where cleanup actions are completed. Increased percentage of underground storage tanks inspected that pass compliance for leak detection.

As of 3/3/2013

001505 - Average number of underground storage tank inspections completed per inspector.

## A024      Manage Water Rights

**Statewide Result Area:**      **Improve the quality of Washington's natural resources**

**Statewide Strategy:**      **Achieve sustainable use of public natural resources**

### Expected Results

Improved allocation of new water rights and changes to existing rights through sound and timely permit decision-making. New municipal water right provisions are implemented with the Department of Health. Water needs are met and existing water users and the environment are protected. Timely and sound decisions are made on applications for new water rights and changes to existing rights to (re)allocate water.

As of 3/3/2013

## A025 Measure Air Pollution Levels and Emissions

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Provide good science and natural resource monitoring data to support decision-making

### Expected Results

Comprehensive, high-quality air quality data are gathered, maintained, and evaluated over time to ensure informed policy decisions. The federally -required monitoring network review and monitoring site modifications are conducted to meet state and federal air quality needs. Adequate data are available to policy makers. Improved emissions data and modeling tools are used to predict air quality levels, impacts, and trends.

## A027      Monitor the Quality of State Waters and Measure Stream Flows Statewide

**Statewide Result Area:**      Improve the quality of Washington's natural resources  
**Statewide Strategy:**      Provide good science and natural resource monitoring data to support decision-making

### Expected Results

Trends, conditions, and changes in water quality of major freshwater rivers, Puget Sound, and the largest coastal estuaries are tracked. Monthly samples from approximately 82 freshwater and 35 marine water sites are collected. Stream flows at approximately 62 near real-time stations are measured and reported. Real-time stream flow data is provided via the Web. Ecology staff and the public are alerted to emerging water quality problems. The effectiveness of water cleanup activities is tracked and assessed.

As of 3/3/2013

001155 - Percent of monitored stream flows below critical flow levels.

## A028 Improve Environmental Compliance at State's Largest Industrial Facilities

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

Pulp and paper facilities, oil refineries, and aluminum smelters have an improved compliance rate with environmental standards through one-stop environmental permitting, compliance, and technical assistance. Assurance that at least 90 percent permits are up to date at all times. Plant permits comply with federal standards to drive emissions down over time.

As of 3/3/2013

001487 - Percent of industrial section permit actions that meet the agency timeliness goals.

Comment: Added project position to deal with backlog. Permits behind due to staff loss, extensive public disclosure requests, public comments and appeals on some permits, owner change & past envirn problems, delays in permit submittals, major changes in permits.

As of 3/3/2013

001655 - Refer to Narrative Justification

## A029 Prepare and Respond to Drought

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Achieve sustainable use of public natural resources

### Expected Results

Drought effects are monitored, and where feasible, mitigated (such as impacts to water supply and drought preparedness) through improved planning, communication, coordination, and loss prevention efforts.

001655 - Refer to Narrative Justification

## A030 Prepare for Aggressive Response to Oil and Hazardous Material Incidents

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

Ecology and the regulated community are fully prepared to promptly respond to oil spills, and damage from spills are minimized. Compliance with the industry sponsored Neah Bay response tug is documented in approved vessel contingency plans. Four Geographic Response Plan chapters are updated. The ongoing maintenance of response equipment is documented by industry and records verified by Ecology. Ecology targets oil spill related outreach efforts to local governments in coastal communities.

As of 3/3/2013

### A031 Prevent Hazardous Waste Pollution Through Permitting, Closure, and Corrective Action

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Preserve, maintain and restore natural systems and landscapes

#### Expected Results

Facilities that treat, store, or dispose of hazardous wastes are constructed and operating properly to prevent soil, water, or air contamination. Protective permits for facilities that treat, store, or dispose of hazardous wastes are issued in a timely manner. Eight percent annual increase in the overall cleanup at 39 selected treatment, storage, and disposal facilities. Proper financial assurance requirements are in place at used oil processors and recyclers to fund potential future cleanups at abandoned facilities.

As of 3/3/2013

001285 - Semi-annual progress toward completed corrective action at 39 priority facilities. Corrective action is the clean up of contamination at hazardous waste treatment, storage and disposal (TSD) facilities.

## A032 Prevent Point Source Water Pollution

Statewide Result Area: Improve the quality of Washington's natural resources  
 Statewide Strategy: Establish safeguards and standards to protect natural resources

---

*As of 3/3/2013***Expected Results**

Fewer wastewater discharges and lower toxicity through administering the permit program for 2,000 permit holders. 100 National Pollution Discharge Elimination System wastewater discharge permits are issued or renewed each year. Active permits are up to date. New permit applicants get responses within 60 days. General permits are developed and managed on schedule for 1,500 dischargers. 700 site visits are done each year. Approximately 2,000 wastewater plant operators get certification. Communities get help increasing the production and use of reclaimed wastewater. Ecology responds to permit violations in a timely manner (within three months for minor violations).

As of 3/3/2013

### A033 Prevent Oil Spills from Vessels and Oil Handling Facilities

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Establish safeguards and standards to protect natural resources

#### Expected Results

Strive to achieve zero oil spills from vessels and oil handling facilities. Minimize or prevent spills through risk management, and targeted inspections. Reduced number of oil spills entering surface waters, particularly from marine sources. Reduced total volume of oil entering surface waters to less than one gallon for each 100 million gallons transferred over water. Reduced percentage of vessel and oil transfer accidents resulting in or potentially leading to spills by: (1) Boarding and inspecting targeted high-priority vessels and facility operations; and (2) utilizing the Neah Bay rescue tug to help vessels as needed. Increased tanker and tank barge enrollment in the Exceptional Compliance Program (also known as ECOPRO) focused on improved vessel safety and environmentally secure operations. Reduced incidence of intentional waste oil discharges at sea from vessels.

As of 3/3/2013

## A034 Prevent Unhealthy Air and Violations of Air Quality Standards

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

Air quality standards in Washington are met throughout the state to minimize public health problems linked to unsafe air. Clean air, as classified and officially recognized by the Environmental Protection Agency, is attained and maintained, and federal sanctions are avoided. Violations of ambient air quality standards are prevented. State Implementation Plan strategies are analyzed and evaluated for areas out of compliance with federal air quality standards: Pierce County/Tacoma, and Yakima. Strategies are evaluated to help prevent areas from violating federal air quality standards in at-risk communities

As of 3/3/2013

000998 - Number of areas in Washington measuring air quality levels that are not in compliance with federal air quality standards.

001655 - Refer to Narrative Justification

## A035 Promote Compliance with Water Laws

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Preserve, maintain and restore natural systems and landscapes

### Expected Results

Increased awareness of, and compliance with, the state's water laws so that legal water users and applicants for water rights are not impaired, water use remains sustainable, and the environment is protected. Ninety percent of water is metered and reported in 16 critical water basins. Water right holders receive compliance information, assistance, and strategic enforcement action. Water use on streams with flows set is regulated during periods of low flows.

As of 3/3/2013

## A038      Protect, Restore, and Manage Wetlands

**Statewide Result Area:**      **Improve the quality of Washington's natural resources**  
**Statewide Strategy:**      **Preserve, maintain and restore natural systems and landscapes**

### Expected Results

Wetlands are protected, restored and managed consistent with state and local permits and laws. Local governments and other parties get technical assistance to carry out local wetland protection efforts. Wetland losses are fully replaced by improving the success rate of wetland mitigation. Approved mitigation achieves compliance through meaningful performance standards, and monitoring project success.

As of 3/3/2013

001458 - Percent of mitigation sites inspected within 18 months after receipt of as-built reports.

## A040 Provide Technical and Financial Assistance to Local Governments to Reduce Flood Hazards

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Establish safeguards and standards to protect natural resources

---

*As of 3/3/2013***Expected Results**

Local flood hazard management plans and flood control projects reduce flood damage to property and the environment. Local governments get technical and financial help to maintain flood management programs and respond to flooding. Flood-prone communities are better prepared for responding to flooding emergencies.

As of 3/3/2013

001455 - Number of flood-prone communities receiving direct support on regulatory issues, flood hazard reduction, and the protection of floodplain functions and values.			
Biennium	Period	Actual	Target

## A042 Provide Technical Training, Education, and Research through Padilla Bay Estuarine Reserve

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Improve individual practices and choices about natural resources

### Expected Results

The Padilla Bay Reserve is managed and maintained in a cost-efficient and effective way to provide public education, training, and scientific research and monitoring. Students, teachers, professionals, and researchers participate in education and training programs. Coastal ecosystem research is carried out and shared with government and academic organizations. Coastal and land-use managers and planners are trained to carry out environmental policies and rules in Western Washington. Volunteers and professionals carry out Puget Sound restoration activities, including derelict gear removal, marine debris collection, and habitat enhancements.

As of 3/3/2013

## A043 Provide Water Quality Financial Assistance

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

Public funds dedicated to improving water quality are managed responsibly to protect public health and the environment. Water quality is improved by awarding about \$75 million in water quality grants and loans per year to local communities. About 60 new grants and loans are awarded each year for projects under existing and on-going financial assistance programs that demonstrate clear benefits for the environment. Additional grants are awarded each year for stormwater projects, based on newly appropriated funds. Approximately 350 existing grants and loans are managed each year. Local governments get support through implementing revised grant and loan program rules that address updated water quality needs, the State Revolving Fund loan program perpetuity, balanced funding allocations, and design-build alternative contracting options. Environmental benefits are documented and illustrated through data generated from grants and loans.

As of 3/3/2013

001564 - Number of funded on-site sewage system repairs or replacements completed in Puget Sound counties.

## A044 Provide Water Resources Data and Information

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Provide good science and natural resource monitoring data to support decision-making

**Expected Results**

As of 3/3/2013

Sound water management is supported. Improved agreement and more informed water resources decisions are based on increasingly timely and accurate data and improved public access to information. Data and information systems are developed and maintained by increasing the numbers of external users (watershed groups, conservancy boards, businesses, etc.). Improved collection, preservation, and availability of data and information for water allocation, dam safety, well construction, instream flows, and communication.

## A045 Reduce Air Pollution from Industrial and Commercial Sources

---

*As of 3/3/2013***Statewide Result Area:** Improve the quality of Washington's natural resources**Statewide Strategy:** Establish safeguards and standards to protect natural resources**Expected Results**

Air pollution from industrial and commercial sources is managed to protect public health and minimize costs and regulatory burdens. 100 percent of permits meet timeliness targets. The regulated community is certain about the need, content, and time frames for permits. Ecology and local air pollution control agencies retain delegation and local control of federal permit programs.

As of 3/3/2013

000994 - Average Notice of Construction permit processing time (days).

## A047      **Reduce Health and Environmental Threats from Motor Vehicle Emissions**

**Statewide Result Area:**      **Improve the quality of Washington's natural resources**  
**Statewide Strategy:**      **Establish safeguards and standards to protect natural resources**

### Expected Results

Air pollution emissions from motor vehicles are reduced. Pollution from on-road motor vehicles is reduced approximately 10% per year. Pollution from approximately two million cars is reduced by operating an Emission Check Program in three maintenance areas in the state. Diesel school bus and public fleet engine retrofits are completed and appropriate private sector engines are retrofitted with air pollution controls. State and Federal Diesel Emission Reduction Act (DERA) and American Recovery and Reinvestment Act (ARRA) funds are managed to reduce highest risk toxic diesel emissions. Strategies to reduce engine idling in high exposure areas (near schools and around truck stops) are developed and implemented.

As of 3/3/2013

001006 - Tons of motor vehicle emissions produced statewide.			
Biennium	Period	Actual	Target

## A048 Reduce Health and Environmental Threats from Smoke

Statewide Result Area: Improve the quality of Washington's natural resources  
 Statewide Strategy: Establish safeguards and standards to protect natural resources

### Expected Results

As of 3/3/2013

Public health threats from smoke are managed and minimized. Smoke impacts on communities from agricultural and other outdoor burning are reduced. Outdoor burning permit and smoke management systems are improved and streamlined. Local burning permit programs are audited to ensure effective and efficient operation. Practical alternatives and best management practices for burning are developed and used. Wood stove emissions are reduced through creating and implementing a proper burning outreach campaign, effective burning curtailments, change-out of uncertified wood stoves, and working with EPA to develop more stringent certifications for wood burning devices.

<b>001002 - Number of citizens exposed to air quality that does not meet "healthy" levels for fine particle pollution.</b>

## A049 Reduce Nonpoint-Source Water Pollution

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

As of 3/3/2013

Protection of surface and groundwater is improved through community implementation of the state's Water Quality Management Plan to Control Nonpoint Pollution and water quality improvement reports. Local communities and groups get help from Ecology to implement water quality improvement reports and other strategies to clean up polluted waters. The Department of Natural Resources and the forestry industry get help to manage 12 million acres of state-owned and privately-owned forests. The Department of Agriculture gets help to manage water quality problems generated by agricultural uses. Best management practices necessary to address non-point pollution problems are implemented. State and federal grants are available to, and used efficiently by, local governments. The number of stream miles restored or protected is increased through work with local communities and other agencies.

<b>001564 - Number of funded on-site sewage system repairs or replacements completed in Puget Sound counties.</b>

## A050 Reduce Persistent Bioaccumulative Toxins (PBTs) in the Environment

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

Through the development of chemical action plans public health and environmental impacts associated with PBTs and other toxic substances are minimized. Strategies are developed and implemented to reduce and eliminate these harmful chemicals. Ecology will work with affected stakeholders to implement the Lead Chemical Action Plan. Ecology will collect data for a chemical action plan for poly-aromatic hydrocarbons.

001289 - Cumulative pounds of mercury collected and/or captured while implementing Ecology's mercury chemical action plan (measured once annually).			
Biennium	Period	Actual	Target
2011-13	Q5	22,454	18,700

## A051 Reduce Risk from Toxic Air Pollutants

Statewide Result Area: Improve the quality of Washington's natural resources  
 Statewide Strategy: Establish safeguards and standards to protect natural resources

### Expected Results

As of 3/3/2013

The public health threat from toxic air pollutants is minimized. Diesel soot emissions are reduced 40 percent by 2015 compared to a 2005 baseline. State and Federal Diesel Emission Reduction Act (DERA) and American Recovery and Reinvestment Act (ARRA) funds are used to reduce diesel emissions near ports and other toxic hot spots. Woodstove replacements target high-use stoves in high-risk communities. Emission inventories, and understanding of ambient concentrations and sources of priority toxics, are improved. Appropriate strategies to reduce emissions of priority toxics are evaluated and started. Strategies to reduce diesel emissions and engine idling in high exposure areas (near schools, ports freight distribution centers and truck stops) continue to be developed and implemented.

<b>000992 - Number of diesel engines (school buses and public and private sector equipment) retrofitted with pollution control equipment to reduce troxic diesel emissions.</b>			
<b>Biennium</b>	<b>Period</b>	<b>Actual</b>	<b>Target</b>
2011-13	A2	13,208	10,400

## A052 Reduce the Generation of Hazardous Waste and the Use of Toxic Substances through Technical Assistanc

Statewide Result Area: Improve the quality of Washington's natural resources  
 Statewide Strategy: Establish safeguards and standards to protect natural resources

Expected Results

As of 3/3/2013

Hazardous waste generation is reduced by two percent each year (approximately 5 million pounds), resulting in clean-up and disposal cost savings for businesses, reduced public exposure, and fewer cleanups. Work with a total of 500 pollution prevention planners, including up to 70 businesses, to reduce greenhouse gases and toxics metal use. Provide assistance to 40 state agencies to reduce energy use three percent per year in support of new greenhouse gas legislation. Develop a clear system for pollution prevention planners to report their use of toxic chemicals. Increase the number of pollution prevention suggestions implemented by clients. Generation and use of toxic materials by citizens and industries is reduced by focusing on moderate risk waste (hazardous waste generated from households and small businesses).

<b>001282 - Annual pounds of hazardous waste generated (in millions).</b>			
<b>Biennium</b>	<b>Period</b>	<b>Actual</b>	<b>Target</b>
2011-13	Q7		101

## A054 Rapidly Respond to and Clean Up Oil and Hazardous Material Spills

**Statewide Result Area:** Improve the quality of Washington's natural resources

**Statewide Strategy:** Establish safeguards and standards to protect natural resources

### Expected Results

Oil spills, chemical spills, and methamphetamine labs are responded to and cleaned up rapidly to protect public health, natural resources, and property. Spill response capability is maintained 24 hours a day and seven days a week throughout the state. All oil spills are responded to within 24 hours from the time they are reported. Approximately 3,800 annual spill reports are managed.

As of 3/3/2013

001475 - Percent of reported incidents that receive field responses by Spills staff.

## A058 Provide Streamlined Project Permitting for Transportation Projects

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Preserve, maintain and restore natural systems and landscapes

### Expected Results

State transportation projects meet environmental laws. Washington Department of Transportation gets technical help on reducing impacts and receives timely decisions. Projects achieve compliance with permit conditions.

As of 3/3/2013

001454 - Percent of reviews and decisions from Ecology's Transportation Team made within agreed upon timeframes for WSDOT's applications, permits, NEPA/SEPA documents, or other environmental documents.			
Biennium	Period	Actual	Target

2007-09	Q4	24	22

Date Measured: 6/30/2012

Comment: Due to grant fund reduction, and grant eligibility requirements, there are nine less Lead Agencies funded in FY13 than FY12.

001655 - Refer to Narrative Justification

## A060 Provide Regulatory Assistance for Significant Projects and Small Businesses

**Statewide Result Area:** Improve the economic vitality of businesses and individuals  
**Statewide Strategy:** Remove economic development barriers through targeted infrastructure and assistance

### Expected Results

People and businesses who contact the Office of Regulatory Assistance receive permit information. Helpful information is available to applicants on environmental permits such as web-based tools, directories, fact sheets, guidance, and other materials.

As of 3/3/2013

001452 - Number of applicants and customers provided permit assistance information by the Office of Regulatory Assistance Service Center.

## A061 Support Water Use Efficiency

**Statewide Result Area:** Improve the quality of Washington's natural resources  
**Statewide Strategy:** Achieve sustainable use of public natural resources

### Expected Results

Water is sustained for current and future needs. Increased water, energy, and cost savings to protect the environment, increased business competitiveness and reduced pressure on water supplies and waste treatment facilities. Agricultural, commercial, industrial, and non-profit water users get technical support. Department of Health water conservation and reclaimed water efforts get support from Ecology.

As of 3/3/2013

001578 - Amount of funding provided to projects that improve water use efficiency			
Biennium	Period	Actual	Target
2011-13	Q6	\$0	
2011-13	Q5	\$0	
2011-13	Q4	\$0	
2011-13	Q3	\$0	
2011-13	Q2	\$0	
2011-13	Q1	\$0

2009-11	Q2	\$12,454,312	
2009-11	Q1	\$0	

Date Measured: 9/30/2011

Comment: No target - The amount of funding is subject to the amount appropriated for water use efficiency projects.

001655 - Refer to Narrative Justification

## A063 Climate Change Mitigation and Adaptation

Statewide Result Area: Improve the quality of Washington's natural resources  
 Statewide Strategy: Achieve sustainable use of public natural resources

*As of 3/3/2013***Expected Results**

The Department of Ecology will do the following tasks. Complete a statewide greenhouse gas emission inventory, and begin operation of a greenhouse gas reporting program. Assure that Washington's unique electricity, forestry, agriculture, and industrial interests are considered in the design of national or regional climate change reduction program(s). Develop industry emission benchmarks. Write a report that includes emission estimates, proportionate shares of 2020 reductions and needed actions and strategies to make those reductions from large industrial emitters. Make recommendations for emission reduction offsets and/or other incentives for the forestry industry. Sign an emission reduction order with TransAlta that reduces its greenhouse gas emission by at least 50 percent. Make recommendations about a Washington low carbon fuel standard to the Governor. Develop an integrated climate change adaptation strategy including creating a public website. Calculate its greenhouse gas emissions and develop a plan to reduce them. Develop and disseminate an emissions calculator to assist state agencies in estimating aggregate emissions. Assist other state agencies in reporting their emissions and the actions they will take to reduce their emissions. Submit a report to the Governor on state agency emissions by 12/31/10. Create methods to track progress towards meeting the state's 2020 emissions and report on progress to the Legislature. Provide guidance on sea level rise and water supplies in light of climate change to local governments and other water users.

As of 3/3/2013

001009 - Tons of greenhouse gas emissions produced statewide.			
Target: 2020 statutory target equal to statewide emissions level of 92.9 million metric tons (mmt) of carbon dioxide equivalents (CO <sub>2</sub> e) in 1990.			
Biennium	Period	Actual	Target
2011-13	Q6		93.6
2011-13	Q2		93.6
2009-11	Q6	95.6	93.6
2009-11	Q2	95	93.6
2007-09	Q6	99.1	93.6
2007-09	Q2	102.5	93.6

Date Measured: 12/31/2012

Comment: By law (RCW 70.235.020(2)), emission data for this period is due to be reported by 12/31/2014.

001655 - Refer to Narrative Justification

## A064 Manage Solid Waste Safely

Statewide Result Area: Improve the quality of Washington's natural resources

Statewide Strategy: Establish safeguards and standards to protect natural resources

### Expected Results

As of 3/3/2013

Disposed solid waste needs to be managed in environmentally compliant facilities. Proper solid waste handling and disposal practices will minimize toxic contamination to the state's groundwater, surface water, and air.

\* Technical assistance is provided to jurisdictional health departments to ensure facility compliance with environmental regulations,

<b>001484 - Million of tons of solid waste generated annually in Washington. Reported annually in Quarters 2 and 6.</b>			
<b>Biennium</b>	<b>Period</b>	<b>Actual</b>	<b>Target</b>

*Date Measured: 12/31/2012*

*Comment: A database error was discovered which had over-calculated the totals.*

**Number 001495 - Pounds of household and small quantity generator hazardous wastes recycled or properly disposed**

As of 3/3/2013

001497 - Dollar value of recyclables disposed (in millions). Reported annually in Quarters 3 and 7.			
Biennium	Period	Actual	Target
2011-13	Q7		\$225
2011-13	Q3		\$225
2009-11	Q7	\$205.8	\$206
2009-11	Q3	\$320	\$201
2007-09	Q7	\$265.7	
2007-09	Q3	\$207.1	

Date Measured: 3/31/2012

Comment: No funds to purchase data because of budget reductions in WRLCA fund.

As of 3/3/2013

001498 - Percent market share of green building projects in Washington. Reported annually in Quarters 3 and 7.			
Biennium	Period	Actual	Target
2011-13	Q7		18.8%
2011-13	Q3		18.5%
2009-11	Q7	17.91%	11%
2009-11	Q3	15.67%	10%
2007-09	Q7	7.69%	
2007-09	Q3	11.2%	

Date Measured: 3/31/2012

Comment: Cannot report data - Legislative proviso prohibited work on Green Building and funding reduced so not able to purchase needed data.

001655 - Refer to Narrative Justification

## A065 Reduce Toxic Chemicals in Products and Promote Safer Alternatives

Statewide Result Area: Improve the quality of Washington's natural resources  
 Statewide Strategy: Establish safeguards and standards to protect natural resources

### Expected Results

As of 3/3/2013

Reducing toxic chemicals in products over time will lower risks to people and the environment. 36 million pounds of covered electronics are collected through the E-Cycle Program. Rule making and development of a list of chemicals of high concern for children's products is completed and a mechanism for manufacturer reporting is developed. Provide support to other Ecology programs to implement the Children's Safe Product Act and lead chemical action plan, . Reform chemical policy at the state and federal levels. Develop protocols for identifying safer alternatives to toxic chemicals of concern. Conduct a pilot project with Washington businesses to identify safer alternatives for up to 5 chemicals of concern. Improve how state government purchases products through environmentally preferred purchasing.

001297 - Annual pounds of hazardous materials reduced (in millions).			
Biennium	Period	Actual	Target
2011-13	Q5		6.82
2011-13	Q1	6.78	6.68
2009-11	Q5	7.2	6.55
2009-11	Q1	6.85	
2007-09	Q5	3	
2007-09	Q1	5.09	

Date Measured: 9/30/2012

Comment: We are unable to report a 2012 annual result as we are currently changing the methodology and old queries from the old database are no longer available.
